📄 PROFILE

Design Engineer with 5+ years of experience in frontend development, specializing in React, TypeScript, and NextJS. Skilled in building and optimizing AI-driven applications and creating seamless user experiences.

🧠 SKILLS

Frontend

JavaScript ES6+ TypeScript, React, ReactNative, Redux, Context API, HTML, CSS, Bootstrap, Figma

Backend

Java, SpringBoot, SpringMVC, Hibernate, Servlet, JSP, MySQL, FireBase, CI/CD

📁 PROFESSIONAL EXPERIENCE

Frontend Developer, Athletes Thread

May 2023 – Dec 2023 | Los Angeles, CA

- Created custom **UI components with React.js and CSS**, ensuring brand consistency for AthletesThread.
- Designed and implemented **custom Liquid templates and JavaScript modules**, enhancing Shopify's default functionality to meet complex client requirements.
- Integrated **GraphQL and Rest APIs** with custom apps to **automate order processing** and customer management, streamlining backend operations and reducing manual work by 40%.
- Implemented **dynamic product filtering** and sorting features, enhancing the user experience by allowing easy navigation and quick access to desired products.

Technologies: React, JS, CSS, RestAPI's, Swagger, MySQL.

Software Developer, Relyon Softtech LTD

Jul 2020 – Jul 2022 | Bangalore, IN

- Built **cross-platform application** for billing a payroll, boosting engagement by 40% and customer satisfaction by 25%.
- Developed **interactive prototypes in Figma** to visualize complex UI/UX flows, enabling early testing and refinement of design concepts before development.
- Implemented **Client-side state management, caching and lazy loading** to improve real-time data synchronization, resulting in a 35% reduction in server load and a 45% improvement in website speed.
- Optimized **React components with TypeScript**, cutting bundle size by 20% and boosting performance by 15%.
- Crafted **custom TailwindCSS utility classes** for highly specific design requirements, enabling rapid and consistent UI development across multiple projects.
- Built **adaptive UI components** with HTML5, CSS3, and SASS, ensuring modular and maintainable styling.
- Utilized **Realm Database** for offline functionality, ensuring seamless data synchronization during connectivity loss.

Technologies: React and React-Native, AWS, API Integration, TypeScript, Java, SpringBoot, Realm Database.

Hybrid Application Developer, 3E Software Solutions

May 2018 – Jul 2020 | Bangalore, IN

- Spearheaded intrusive web application development for diverse industries, integrating **Firebase for real-time push notification** features and language translation, now integral to Defacto's suite.
- Implemented **caching rules using in-memory, browser, and CDN techniques**, reducing server load from ~160/sec to ~20/sec.
- Spearheaded the development of fully responsive, mobile-first UI designs using **CSS3, Flexbox, and Grid layouts**, ensuring a consistent user experience across all devices.
- Adopted **micro-frontend architecture** and integrated **Storybook to enhance UI** component reusability and maintainability.
- Experienced in developing React components, used **Hooks** and **Axios** for making Ajax Calls.
- Championed Agile methodologies, including Scrum, to deliver high-quality SaaS features on a bi-weekly sprint cycle, maintaining a **98% on-time delivery rate**.
- Successfully published multiple applications on the **App Store and Google Play Store**.

Technologies: React-Native, Ionic, Code Migration and Back Support, Python, AWS, Micro-frontend Architecture, Storybook, Figma.

📁 PROJECTS

Civic-Guardian, Emergency Route Planning Tool

Sep 2023 – Oct 2023

- Created a cross-platform app using Floyd Warshall's algorithm to optimize Google Maps routes and reduce decision fatigue.
- Customized Floyd Warshall's algorithm with historic traffic heuristics to improve alternative pathfinding.

Technologies: React Native, Webpack, Google APIs, D3js, Python

RecEngine, Steam Game Recommendations

Mar 2024 – Apr 2024

- Developed a data analysis pipeline on AWS EC2 using Apache Spark, processing 41M+ game records.
- Created a dynamic dashboard in Amazon QuickSight, leveraging SQL for insights and recommendations.

Technologies: AWS, Apache Spark, Kafka, SQL, Python

🎓 EDUCATION

Masters in Computer Science, California State University, Fullerton

2022 – 2024 | United States

Bachelor of Engineering, Rajiv Gandhi Proudhyogiki Vishwavidyalaya

2014 – 2018 | India
